## High Altitude Plant List

The principals of Neils Lunceford, Inc. have been studying and creating landscapes at high altitudes for over 25 years. Since the inception of Neils Lunceford, Inc. in 1980, quality education and professional creativity have become constant products of the firm.

Neils Lunceford Nursery is located at 8,750 feet above sea level and our work has taken us to an elevation of 12,500 feet above sea level. These elevations and the general climate of Summit County render quite an interesting and challenging plant list. Neils Lunceford has one of the largest selection of plant materials in the mountain area. The qualified staff at Neils Lunceford has been conducting numerous experiments and research projects for many years to better understand native plant, low maintenance and drought tolerant species. These efforts have resulted in the introduction of very useful plants increasing our high altitude plant palette.

The following is a partial list of plant materials found or grown in Summit County, Colorado by Neils Lunceford, Inc.

740 Blue River Parkway, P.O. Box 2130 Silverthorne, CO 80498  
(970) 468-0340 (970) 468-6865(FAX) [www.neilslunceford.com](http://www.neilslunceford.com)

# NEILS LUNCEFORD PLANT LIST

## TABLE OF CONTENTS AND GUIDE

Trees and Shrubs  
Perennials  
Annuals  
Early Flowering Plants  
Mid Season Flowering Plants  
Late Season Flowering Plants  
Herbs, perennial and annual  
Bulbs  
Drought Tolerant / Water-Wise Plants  
High Altitude Wetland Plants  
Shade Tolerant Plants

THROUGHOUT THIS PLANT LIST, USE THE RATINGS AND SYMBOLS BELOW AS GUIDELINES TO CHOOSE THE PLANT MATERIAL THAT BEST SUITS YOUR LANDSCAPE NEEDS.

- X** = Thrives in slightly dry conditions. Once established, these plants generally require about 1" of water per week.
- XX** = Thrives in dry conditions. Once established, these plants generally require about 1/2" of water per week.
- XXX** = Thrives in very dry conditions. Once established, these plants generally require about 1/2" of water every two weeks.

= Good Plant For Cut Flowers

= Native to Colorado

= Typically Deer Resistant

= Attracts Butterflies

= Attracts Hummingbirds

= Needs Protection

## TREES AND SHRUBS

### TREES

#### DECIDUOUS

Aspen   
 Balsam Poplar  
 Mayday   
 Narrowleaf Cottonwood    
 Shubert Chokecherry **X**  
 Crabapple 'Radiant' & 'Spring Snow'

#### CONIFEROUS

Bristlecone Pine  **X X**  
 Colorado Spruce    
 Engleman Spruce   
 Limber Pine **X X**   
 Lodgepole Pine   **X X**  
 Ponderosa Pine **XX**  
 Rocky Mountain Douglas Fir  
 Sub Alpine Fir  

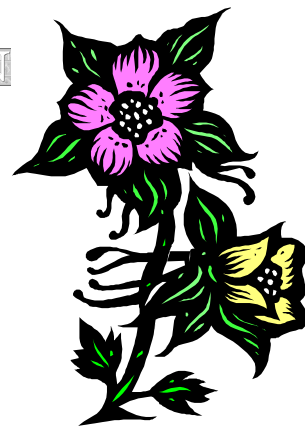

### SHRUBS

Alder, Thinleaf  	Mahonia, Creeping  
Antelope Bitterbrush <b>X</b> 	Maple, Ginnala (Amur) <b>X X</b>
Birch, Bog 	Mountain Lover 
Birch, Western River 	Mountain Ninebark <b>X X</b>
Buffaloberry, Russet  or Silver <b>XXX</b>	Mugo Pine <b>X</b>
Cherry, Cistena (Purpleleaf Plum) <b>X</b> 	Peking Cotoneaster <b>X X</b>

The success of each plant depends on the location of the site in Summit County and many other environmental factors. Ask anurseries salesperson for suggestions for your site.

# ANNUALS

Annuals provide A very long bloom time for just one year or season. Plant types and colors may be combined in many ways to produce a wide variety of effects and arrangements. Annuals are an effective way to provide quick color in gardens and on decks and patios. Many annuals may be started from seed. See the annual seed list on the next page.

## "HARDY" (Tolerant of Light Frost)

<u>Plant</u>	<u>Color</u>	<u>Sun</u>	<u>Part</u>	<u>Shade</u>
African Daisy X	orange, white, purple	Sun

Iceplant	mixed colors	Sun		
Livingstone Daisy	pink, white, yellow,	Sun		
Marigold <b>XX</b> 	yellow, orange	Sun		
Mossrose <b>XX</b>	red, yellow, white, pink	Sun		
Phlox 	pink, red, white	Sun	Part	
Salvia <b>XXX</b> 	blue, purple, red, white	Sun	Part	
Snapdragons 	mixed colors	Sun	Part	
Twinspur <b>XX</b>	pink, rose	Sun	Part	
Verbena 	red, white, purple, blue	Sun		

Sun = Full Sun (More than 4 to 5 hours of strong sun per day)

Part = Part Sun

Shade = Shade

Sun Part Shade = Full Sun to Shade

Many annual flowers are easily started from seed. They may be started indoors where they should get plenty of bright light and whrer it's not too hot. Lots of light and cool temperatures will grow a stronger, fuller plant. Annual seed can also be sown into the fall prior to a snow that stays for the winter.

## ANNUALS THAT WILL GROW WELL FROM SEED

Bachelor Buttons  
 Baby's Breath  
 California Poppy  
 Candytuft  
 Clarkia  
 Larkspur  
 Shirley Poppy  
 Sweet Pea  
 Viola

# EARLY FLOWERING PLANTS

April-Early June

# HERBS: PERENNIAL AND ANNUAL

The following is a list of perennial and annual herbs that work well in Summit County  
Ask for assistance infor the best outdoor selections

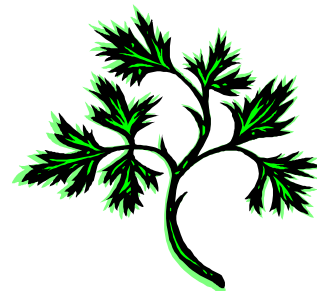

## Perennial Herbs:

Angelica  
Bee Balm  
Catnip  
Chives, Regular and Garlic  
Comfrey  
Costmary  
Foxglove  
Germander  
Hop Vine  
Horseradish  
Hyssop  
Lemon Balm  
Lavender (Semi-Hardy)  
Lemon Balm  
Lovage  
Oregano  
Marjoram, Sweet (Semi-Hardy)

Mints: Apple  
Bargamot  
Candy  
Chocolate  
Lemon/Lime  
Mint Julep  
Peppermint  
Spearmint

Sage  
Savory, Winter  
Sorrel, French  
Tarragon, French  
Thyme  
Valerian  
Wormwood  
Yarrow

## Indoor Perennial Herbs:

Bay Leaf  
Rosemary  
Scented Geranium

## Biennial Herbs:

Parsley; Plain, Italian, Triple Curled

## Annual Herbs:

Anise  
Basil; Seewt, Spicy or Purple  
Borage  
Burnet  
Caraway  
Chicory  
Chervil

Corinader / Cilantro  
Dill  
Fennel  
Horehound  
Lemon Verbena  
Watercress  
Wintergreen

# VEGETABLES

## COOL/ SHORT SEASON PLANTS FROM SEED:

PLANT SUGGESTED CUTIVARS

Beans, Garden Blue Lake (Bush)  
Kentucky Wonder (Pole)  
Improved (Bush)

Beet Detroit Dark Red  
Tall Top Early

Broccoli De Cicco  
Green Sprouting Calabrese

Brussle Sprouts Catskill

Cabbage Copenhagen Market Early

Carrot Danvers  
Scarlet

Lettuce Limestone (Bibb)  
Black Seeded Simpson  
Buttercrunch  
Grand Rapids  
Great Lakes  
Mesclun mix  
Parris Island (Romain)  
Salad Bowl Red

Onion Bunching (Type)

Parsnip Harris Model

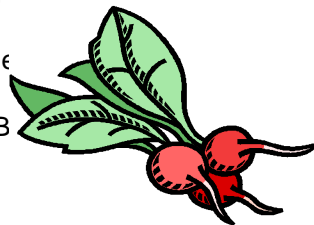

Peas Alaska Wilt Resistant  
Little Marvel (Dwarf)  
Melting Sugar  
Oregon Sugar  
Sugar Snap

Radish Cherry Belle  
Sparkler  
Red Devil B

Roquette (Arugula)

Spinach Bloomsdale Long Standing  
Teton (hybrid)

Turnip Purple Top White Globe

## WARM SEASON PLANTS FROM SEED:

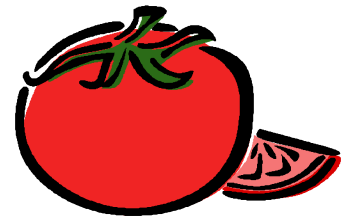

PLANT SUGGESTED CUTIVARS

Pepper California Wonder  
Habanero

Tomato Better Boy  
Supersweet

## FROM STARTS : COOL AND WARM SEASON

Broccoli  
Brussle Sprouts  
Cabbage  
Cauliflower  
Onions From Sets  
Peppers  
Potato

Rhubarb  
Srawberries  
Tomatoes

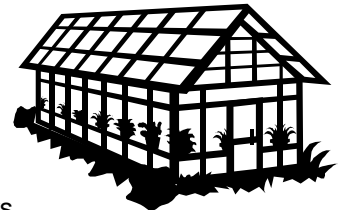

Yukon Gold  
Northern Red

Patio  
Siberan  
Early

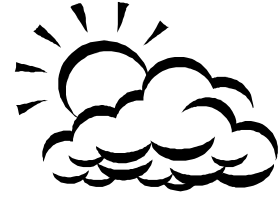

## METHODS TO INCREASE GROWING SEASON

Cold Frame  
Greenhouse  
Dark Mulch  
Frost Covers  
Micro-Climature  
Start Seeds Indoors

# SHADE TOLERANT PLANTS

## SHRUBS AND TREES

Alder, Thinleaf  
Buffalo Berry, Russet  
Buffalo Berry, Silver  
Chokecherry, Native  
Chokecherry, 'Shubert's'  
Curant, Alpine  
Dogwood, Redtwig  
Dogwood, Yellowtwig
